Rob, I have been in contact with our site folks and they are in the process of securing items that may be of concerns from storm/winds.

Hi,
We have a HQ request to make sure all sites are hurricane prepared within the storm cone. Can you confirm LCP has all tanks and equipment secured and no loose barrels, etc?

Thanks,

Rob/James – we'll be mobilizing to begin the post-Phase 4 sparging sampling and the CBP semi-annual monitoring event on 9/9 and work will proceed throughout that week and possibly into the following week. I will also be down for the OU3 public meetings so I'm available for any interactions.
